Marion High School, Marion, Iowa

Oct. 1, 1965

## MHS Library Expanding

There are several new books in the library which Miss Mangold thinks are particularly interesting. These books cover several categories.

One of the best mysteries written is "Mistress of Mellyn" by Victoria Holt. About a governess in a huge old mansion, it provides interesting reading.

Two of the best new biographies are "Girl With a Pen" by Elizabeth Kyle and "Anne Frank, A Portrait in Courage" by Ernst Schnabel. The first is the story of the great Charlotte Bronte, author of "Jane Eyre." The second is a complete biography of Anne Frank.

"A Song of Sixpence" by A. J. Cronin is the touching story of a boy with non-conformist Catholic parents in early twentieth-century Protestant Ireland. "A Separate

Peace" by John Knowles has been heralded as one of the greatest books in modern times. Author Knowles' first venture, it is truly a book worth reading.

In the history category is "History of English Speaking People" by Winston Churchill, complete in four volumes. Also new is "The Crusades" by Harold Lamb. Two books about Elizabeth I are "Young Bess" and "Elizabeth, Captive Princess," both by Margaret E. F. Irwin.

A book which Miss Mangold thinks is unusual and also very interesting is "Flush, a Biography" by Virginia Woolf. This is the story of the famous Elizabeth Barrett-Robert Browning romance. It is told from the point of view of Flush, Elizabeth's dog. Flush won the hearts of America in the famous Broadway play, "27-A Wimpole Street."

Other new books are "Battle Santevns" by M. Allen, "Find the Boy" (A Boy Ten Feet Tall by W. Canavay), "An Old Fashioned Christmas" by Paul Engle, "Burna Rifles-The Story of Merrill Mauraders" by Frank Bonhano, and "Wonderful O." by Fanes Thurber.

## Wright conducts music theory class

Mr. Wright has begun a class on music theory and conducting techniques. It is held after school on Mondays for "only about twenty minutes." Mr. Wright believes that no student will become bored in this short time, and that a lot will be accomplished.

The class will use a book by Frederic Swift, "A Work Book in Music Theory." From this they will learn the basics of music construction.

Mr. Wright found that many schools already have a program like this one. He hopes that enough Marion students will be interested to use it as a course called "Music Horizons."

"Junie" becomes a M.H.S. student.

## Exchange student staying in the Garlinghouse home

Fausto DeVera, our foreign exchange student, is staying at the home of Pete Garlinghouse. Junie, as he prefers to be called, likes America very much although he did admit to being somewhat homesick. He has six sisters and five brothers, and his home is Basiean City. I complimented him on his excellent English and he said that their native tongue was Spanish but he had taken four years of English.

I asked him what he liked best about America and he said, "Oh everything: the teachers, school and students are all very nice." At home their school seemed to have been harder so he was not as yet having any trouble with any of our courses. He liked the food very much but said it was a lot different from what he's used to. The climate and clothing seemed to surprise him the most. The climate of the Philippines is always between 70 and 80 degrees, so he was not used to this cool weather. I told him to just wait and it would get really cold. He said the fabric of our clothes was also a lot thicker as they wore mostly dacron and the like.

From the political view point, Junie informed me that the Philippino thinks of America as a rich, modern nation, although they did not prefer us over the U.S.S.R. Even so I hope that Junie will find his stay both enjoyable and rewarding and I am sure all of us will, too.

## Annual cheerleading clinic to be held

Oct. 2, 1965, hosts the date of the annual cheerleading clinic. Early on the second, the Marion cheerleaders, including the varsity, sophomore and wrestling, will be leaving for Wisconsin State University at Platteville, Wis., the location for the day-long clinic. The girls, accompanied by Miss Duncan and Miss Mangold should arrive by bus in the early morning to begin a jam-packed day of activities. Many areas will be covered including school spirit and sportsmanship, cheerleading techniques, routines and demonstrations. The girls will even dive into the mysterious minds of the cheering fans through psychology.

A brief outline of the day's activities will begin with a welcome from a National Cheerleaders Association staff member. The afternoon consists mainly of yells, yells and more yells, a summary of the clinic, and the long ride back to good old Marion. Cindy Marshall

## Investigate the AFS program

The purpose of the American Field Service-Americans Abroad Program is to increase the understanding among people of the world by giving young Americans opportunities to live and study as members of families in another country.

In the AFS summer program, young Americans represent their schools, communities, and the United States while living with families abroad for six to ten weeks. In this way the AFS students share the daily life and usual activities of the host family. The summer program lasts from June through August. One requirement is that the candidate be at least 16 years of age by June 30, 1966. By June, 1966, an AFS student should have studied one foreign language in high school for at least two years. The fee for the summer program is \$750.00 which includes the cost of round trip travel between the United States and the students host family overseas, medical expenses, the end-of-stay activities, orientation, and administrative expenses.

The summer program was initiated in 1950 by former "winter" AFS participants wanting to give young Americans a similar opportunity to understand people of another country. The program provides a valuable service, and anyone interested should take action to enroll in the AFS program.

## Future Nurses

The Future Nurses Club held its first meeting on September 9, with twenty-five Future Nurses present. They decided to go to the County Home again this year. Plans were made to work in the office as in past years. The members also discussed future activities and the financial situation.

The officers elected last spring are as follows: Marsha Miner, president; Nancy Soden, vice-president; Connie Finn, secretary; Liz Howe, treasurer; and Michelle Orness, historian.

## Club News

### GRA

On Monday, September 13, GRA held its organization meeting in the gymnasium after school. Homecoming activities were discussed. It was decided that the members would sell homecoming buttons for 25 cents each and paint the store windows. The officers also discussed revising the constitution and the point system. Intramurals will be held on Tuesday or Wednesday in volleyball and basketball, etc., throughout the winter. Initiation was held on Tuesday, September 21, at 7 p.m. Refreshments were served following initiation.

### FBLA

The FBLA held installation of officers on September 15. Installed were: Linda Taylor, president; Diane White, vice-president; Penny Warner, secretary; Cindy Polk, treasurer; and Dorie Kray, historian. Initiation of new members will be held in October.

## From the Editor . . . To the Seniors

Marion High has chosen its class officers. With this there are the soaring delights of winning and the quiet disappointments of defeat. The new officers are busy with a score of new responsibilities. The sophomores have homecoming, and juniors are warming up their magazine sales pitches.

But what are the seniors doing? Perhaps their elections were an example of what is to come. The campaigns lacked both decorum and common sense. Jack Benny probably lined some of the senior boys' wallets for exclusive rights to the use of their material. Jokes can be funny — and they were — but should not be carried to extremes in such a serious business as choosing the leadership of our classes.

Every class has a handful of real gems. They're the first ones to sign up for committees in Quill, G.R.A., Industrial Arts, FBLA and Future Nurses. They get up early to practice marching and stay late to help type the Vox. But a few individ-

uals, no matter how wonderful they appear to be, do not make up any class. The class of 1966, or any other, is comprised of every single student. This class is what you want it to be. If you don't care — that's what you'll have — a class worth no more than yesterday's chewing gum. If you want to make the graduating class of 1966 the greatest that Marion has ever known — you can.

Four class officers can not make or break us. Neither can forty. Each and every one of us must pitch in and help. Participating in sports and school activities is wonderful. But let's not forget the guy who sits up in the stands and cheers his team on, or the ones who honestly mean "We're from Marion, couldn't be prouder."

Maybe the sophomores and juniors will take heed and draw their respective classes together now. The seniors are wishing that they had long ago. But it is not too late. We can make 1966 the greatest yet, and the greatest ever, by starting now.

Mr. Lowell Morgan is M.H.S.'s new principal.

Mr. James Morrow will coach M.H.S.'s basketball team.

## Principal and new teachers arrive at Marion High School

Mr. Morgan, our new principal, was born in Spencer, Iowa. He attended school in Spencer and after graduation farmed and was in the service. When he returned, he attended Buena Vista College at Storm Lake, Iowa, and the University of South Dakota. In 1962, he graduated from South Dakota and went to Callender, Iowa, where he was the senior high school principal and taught commercial subjects. From Callender he went to Merville, Iowa, where he was also the senior high principal, and from Merville he came to Marion.

He was asked to give the student body some food for thought. After a few moments of thinking, he sent along this message: "Your educational ladder is going to continue for the rest of your lifetime. If you want to reach the top in your vocation, each educational step along the way must be utilized to the utmost, therefore making the next step easier. I hope that the 1965-1966 school year is a successful step in each student's educational ladder."

Mr. James Walter Morrow, one of our newest faculty members, agreed to release some personal information about himself.

He was born in Davenport, Iowa (no year stated). He attended school in the West Branch School District and graduated from high school in 1952. He was married in 1954 and went into the service shortly thereafter. He was in Japan for two years and returned in 1956 to attend the University of Iowa. He graduated in February of 1960 and began teaching in the Lincoln School District of Stanwood and Mechanicsville in February of 1960. He taught

there for five years and then came to Marion.

He has an eight-year-old daughter, Diane.

He sent along this message to the student body. "Students should realize that this is the best time of their lives. They have the opportunity to find themselves and to get a basic understanding of their country so as to become better citizens. They should work toward this goal and realize that their teachers are here to help them."

New to Marion High is Miss Duncan, girls' physical education instructor, sponsor of the cheerleaders, and of G.R.A.

Miss Duncan was born in East Cleveland, Ohio, and moved to Libertyville, Ill., when she was a freshman in high school. She attended Coe College in Cedar Rapids.

Miss Duncan enjoys swimming, playing tennis and reading. One of her favorites is Fountain Head. Her pet peeves are people who do not develop to their potential, or who waste their lives. Miss Duncan's goal this year is to help girls to realize the importance of physical fitness.

Miss Duncan has this to say of Marion High, "It's very nice, it's small, and has a friendly atmosphere." If she could have any wish, Miss Duncan would wish that everyone would make the most he can of his life.

### APOLOGY

The VOX wishes to apologize to the three new faculty members whose pictures have been omitted from this issue. Photography problems have been extensive, and we sincerely wish to include them next issue.

Mrs. Sylvia Thompson teaches American Literature.

Through a risk of life and limb, Mrs. Sylvia Thompson came to the United States seeking freedom and security. Well . . . maybe that's a bit exaggerated. In truth she was born in Hamilton, Scotland, and at the age of two came to Missouri while World War II was in progress. She entered Missouri State College when she was sixteen and was cited as an honour student in Who's Who in Colleges and Universities. After doing graduate work in Colorado, she has been teaching speech and English in high school. Her husband, Aaron, is an industrial arts teacher at our rival school, Linn-Mar.

Mrs. Carole Hart teaches English and coaches the debate team.

Have any of you seen a strange, blonde woman going through the halls? No . . . she is not an international spy, but another of our new third year English teachers. She is the original "Corn silk Kid" for she was born in Oelwein, Iowa. She attended college at Upper Iowa in Fayette and has since then taught in both junior and senior high schools. Her immediate family consists of a husband who teaches science at McKinley in Cedar Rapids and a four-year-old son, Curtis. Reading and dramatics occupy the leisure time of Mrs. Hart's invigorating daily existence.

## Sumi Visits Bonnie

For a period of one month the past summer, our family was privileged to play host to an almond-eyed miss of Chinese descent, through the E.I.L. program. The Experiment in International Living is an organization somewhat on a parallel with the A.F.S. program. It is concerned with foreign students in American schools.

Sumontha Siriyong, "Sumi," was one member of two groups in the program, whose headquarters were in Putney, Vermont. Each student spent a month with his American "family" after a two-week orientation period in Putney. After experiencing American life first-hand, the groups returned to Putney for a two-week evaluation session.

We became one of the experiment's families due to my mother's perceptive reading. After spying a small article describing the experiment, she promptly called the Cedar Rapids Chamber of Commerce, as directed, and submitted our name.

Upon receiving the news that we had been chosen, we dutifully headed for the bus station on July 17 to meet the new member of our family.

Sumi's first exciting evening with us was spent unpacking and catching up on what she had missed on her three-day bus trip, namely sleep! The next morning was the beginning of the program planned for the students and families. First was the trip to the air show. The families were invited along, and it was our first chance to get acquainted with the other students and their families. This was a little difficult, though, because that airport is just a little large for eight students to keep their families from losing each other. Our real opportunity to become acquainted with each other was at a picnic held soon after that at Bever Park. We then learned who the other seven students and their two group leaders were.

The group took at least one tour per week. These included some of the camps in our area, some of the Cedar Rapids industries, and needless to say, some of our Iowa farms. Of course, there were quite a few extra activities, such as parties for the students and their "brothers" and "sisters."

While Sumi was learning all about us, we managed to extract a few facts about her and her family. Her parents are Chinese, and she received her primary education in China before the family moved to their current residence, Bangkok, Thailand.

Although the group was

## Cross country boys learn to run

Every night after school 16 young men dressed in gray sweat uniforms emerge from Marion High School. They then gather into a large group to do calisthenics, which are led by their new coach, Mr. Morrow. Immediately after this, the boys start a migration toward the track at a slow run. Once at the track the boys usually get a short rest period, which is followed by the running of a mile and one-half. Next come the sprints, which are usually one hundred yards in length. The boys usually run about six of those sprints. Depending on the day of the week, one of two things may happen next. They are either sent to the bluffs to run the cross country course, or they stay at the track and run a mile for time. At last the moment which has long been waited for is here; it is time to run back to the school. There the boys shower and get dressed and call it quits for another day.

This is a nightly work out for the members of the Marion Cross Country team. The men who brave this every night are as follows: senior members, Dick Carsner, Russ Wasendorf, Ken Hopkins, George Svoboda, Bob Franklin, Doug Borland, Steve Stanford and Pete Garlinghouse; junior members, Tom Davis, Bob Bullis, Craig Horner, Gregg Miles, Jeff Risk, Steve Van Note, and Jim Fowler, and sophomore member, Roger Clark.

The team has only two returning lettermen, they are Dick Carsner and Russ Wasendorf. It also has one minor letter winner, Craig Horner. The team plans to up in spirit what is lost in experience. **Schedule**

Sept. 10, Washington, away.  
Sept. 14, Jefferson, away.  
Sept. 18, Prairie, away.  
Sept. 25, state mile meet.  
Oct. 2, Wartburg.  
Oct. 5, Belle Plaine, home.  
Oct. 12, Washington, home.  
Oct. 14, Belle Plaine, away.  
Oct. 19, Prairie, home.  
Oct. 23, state cross country meet.

kept pretty busy, we did manage to spirit her away once in a while for our own family. Our picnics were usually rained out, but we were able to take her to "The Sound of Music," which she enjoyed as much as we did.

As all good things must, Sumi's visit soon came to a close. It seemed no time at all before we were back at the bus station bidding a fond farewell to our adventurous friend.

## "Just A Lot Of Little Things"

Two days ago, I was asked to write a column for the VOX. The fact that they asked me, surprised me almost as much as my accepting did. I would like to make this column a form of catch — all for just a lot of little things that may happen around the school.

I would greatly appreciate any criticisms, suggestions, and ideas you may have for improving "Just A Lot of Little Things." I would also like to have any of you write a paragraph (any amount of words) on something you think should be included in this column. Thank you.

Maybe you won't believe this, but there are students in the school who are already counting the days until graduation. Not only seniors but juniors and sophomores, too.

It's only normal for things to be rather new to sophomores, but this year even seniors are a little leery about school policies. New rules keep popping up all over the place. I think many of them are definitely needed and others are just different.

Along with the new rules, seniors and juniors returning for another year were surprised to find not only a new principal, but also many

other strange faces.

The school is getting a little used to seeing Rick Farnsworth in an arm cast. For those who were not present at the scrimmage (shame, shame) Rick was wounded in a touchdown play.

Elections for student council are now over. The seniors had a little bit of trouble getting anyone to run for these stations of responsibility. Many of the rumors had it that most people were too busy, but what it really boiled down to was: most of the seniors were a little discouraged at the way the class officers are treated. Not only by the teachers but also by the students. I hope that this year we'll all get behind these people and help them. After all, they can't do it by themselves.

Note to underclassmen: work and really make those offices stand for something.

I've heard that the school is going to buy Earl and Frank a shovel for the halls if the holes in the ceiling aren't closed up before snow sets in. Right now they're both a curse and a blessing. At the first part of the year, we all about froze out, but now we're all thankful for what little breeze there is.

Linda Smith

## Miss Duncan has plans for the Girls

This year the girls were greeted in their first gym class by a series of fitness tests. Miss Duncan explained that in these tests, many English girls did better than the majority of American boys. The classes will be taking the test again in the spring to show how much improvement has been made. Unfortunately, no one in the high school could beat the record set in junior high.

Miss Duncan, in case there are some who don't know her, is the new girls' physical education teacher. This year she plans to have the usual activities such as volleyball, basketball and badminton. She hopes to add a few others like tennis, archery and golf. She intends to have a modeling section where the girls will learn to walk correctly and dress effectively, making the best of what they have.

She is also the cheerleading sponsor. On the request of Miss Duncan, a Coe cheerleader is coming to a practice of the Marion cheerleaders to help them with their yells. Miss Duncan is also planning to take the

## Wash defeats Marion cross country

Friday night at their own track, Washington's cross-country team defeated Marion, 33-22. In the mile run Earl Williams of Washington was the individual winner with a time of 4:46. Dick Carsner of Marion finished second with a 5:01 time. Although his team was defeated, Indian coach, Mr. Morrow, was not disappointed. He said, "The boys showed great promise for their future meets this year."

### Places

1. Washington.
2. Carsner-Marion.
3. Washington.
4. Washington.
5. Washington.
6. Wasendorf-Marion.
7. Miles-Marion.
8. Van Note-Marion.
9. Washington.
10. Garlinghouse-Marion.

girls to a practice of the Coe cheerleaders sometime this fall.

Being new, Miss Duncan has had to go through "inspection," and the prevailing attitude is that she is really going to make the girls' gym classes take their show-ers.

## Waverly Tips Indians 12-0

The Marion Indians opened their 1965 football season by dropping a 12-0 game to highly touted Waverly.

Waverly, favored to win the Northeast Iowa conference, ran into a tough Marion defense but finally opened the scoring when Eggleston ran ten yards around right end with 11:17 left in the first half.

The Indians penetrated the Go-Hawks territory only once in the game. Hard-running Joe Benner took a Go-Hawk kick-off on the 12 and scampered all the way to the Waverly 49-yard line before tackled from behind. The Indians for the game, managed just one first down while Waverly picked up 19 first downs and 288 yards rushing.

Waverly threatened the Indians goal line several times in the game, but the Indian defense toughened and Waverly couldn't counter. The Go-Hawks' final score came with 1:11 left in the third quarter when Hertel ran from ten yards out. Marion's rushing line blocked both extra points attempted by Waverly.

The Indians had fine pass defense with Bill Null intercepting two Go-Hawk passes deep in Indian territory. Marion also had some fine punting from Benner. He averaged 39 yards a kick and kicked one which went 55 yards to the Waverly six-yard line. Marion's defense was led by Benner and Kurt Brandt making many tackles throughout the game.

## New activities for boys' P.E.

Since Marion High has a new boys' physical teacher, a lot of the boys may be wondering what Mr. Schaefer is planning to do in P.E. This year he plans many new activities. "Coach" Schaefer's schedule includes horse-shoes, tumbling, soccer, touch football, and wrestling first semester. During the second semester there will be ping pong, bowling, golf and archery. These are but a few of the many interesting activities planned for physical education. As everyone knows, health class is on Fridays for all boys. Something new this year is the notetaking in first aid. It looks like a person will have to have "brains" as well as brawn to pass P. E. now.

There are new activities in intramurals this year. Touch football, wrestling, basketball, soccer and softball are some of the intramural sports.

The Indians opened the 1965 WaMac season against Maquoketa, Sept. 17.

Statistics		
	Marion	Waverly
First downs	1	19
Rushing yardage	63	288
Passing yardage	0	68
Passes	3-0	11-5
Passes intercepted	2	0
Punts	7-39	1-41
Fumbles rec.	1	1
Penalties	15	50
Marion	0 0 0	0-0
Waverly	0 6 6	0-12

## Cross Country team to the state meet

The Marion cross-country team has a 2-1 record going into the state cross-country mile. They beat Cedar Rapids Jefferson in a dual meet Sept. 15, with Dick Carsner first with a 4:56.8 mile and Russ Wasendorf second with a 5:01. Dyrland (5:08) of Jefferson was third. The score was 9-12 (lowest score wins). The cross-squad also won at Prairie in a triangular with Prairie high school and Linn-Mar High School, Sept. 18. The track was almost too wet to run as Marion received four of the first six places, second, third, fourth and fifth. The score there was Marion, 25; Prairie, 31; and Linn-Mar, 64. Miles of Marion won the reserve meet with a 5:20 mile, and Marion won it with 20 points to Prairie's 35. Here is the way they finished in the two meets.

Jefferson vs. Marion at Kingston Stadium:

1. Carsner M (4:56).
2. Wasendorf M (5:01).
3. Dyrland J (5:08).
4. Watson J (5:12).
5. Hemple J (5:12.5).
6. Van Note M (5:13).
7. Garlinghouse M (5:14).
8. Miles M (5:32).

Prairie, Linn-Mar, and Marion at Prairie:

## Scrimmage Sharpens Squad

On Friday night, September 3, the Marion High football squad held their annual pre-season public scrimmage at the athletic field. The evening started with the sophomores versus the juniors. The juniors, who had vowed they would annihilate the seniors that night, were themselves annihilated when the sophs scored midway through their allotted time.

Varsity:

1. Modracek Pr. (4:56.8).
2. Carsner M (5:01).
3. Wasendorf M (5:06).
4. Goodrow Pr.
5. Svoboda M.
6. Van Note M.
7. Hartley Pr.
8. Tampier Pr.
9. Garlinghouse M.
10. Wescott LM.
11. Spudle Pr.
12. Musselman LM.
13. Aricson LM.
14. Willer LM.

Reserve:

1. Miles M 5:20.
2. Horner M 5:26.
3. Prairie.
4. Marion.
5. Prairie.
6. Marion.
7. Marion.
8. Marion.
9. Marion.
10. Prairie.
11. Prairie.
12. Marion.
13. Prairie.

This sent the senior football boys, who were warming up at the north end of the field, into hysterics, and for the first time all year the sophs were turned loose on the doomed juniors. The juniors soon felt the seniors' wrath as senior end Terry Lane grabbed a pass and went in to score. Steve Rucker attempted to kick an extra point, but a bad pass from center forced Rucker to run and the point failed. After the seniors had disposed of the juniors, the team split up into its first and second units. The first unit scored quickly on a fine effort by Bill Null. Rucker's extra point was good. After this a blocking demonstration was given by the first and second units. The team then split up again into four groups and the night ended.

## Football Schedule

Sept. 10 - Waverly - Away  
 Sept. 17 - Maquoketa - Home  
 Sept. 24 - Anamosa - Home  
 Oct. 1 - Monticello - Away  
 Oct. 8 - Tipton - (Homecoming)  
 Oct. 15 - Vinton - Away  
 Oct. 22 - Independence - Home  
 Oct. 29 - Manchester away  
 Nov. 4 - C. R. Prairie - Home

Maquoketa defeats Indians 12 to 6.

## Maquoketa Fizzles Indians 12-6

The Maquoketa Cardinals defeated the Marion Indians in the first Wa Mac game of the season by the score of 12-6. The victory put Maquoketa in a tie for first place with a 1-0 record while the Indians fell to 0-1 in the conference.

Maquoketa and the Indians fought to a scoreless deadlock in the first half in which each team was unable to get an offense rolling.

Maquoketa finally tallied in the third quarter when halfback Jim Roedar scored

from eight yards out. The scoring drive took 65 yards in ten plays. The extra point failed and the Cardinals led the Indians after three quarters 6-0.

Starting the fourth quarter the Cardinals had fourth down on the Cardinal 25-yard line. The Indian players roared in on the Maquoketa and blocked it with Steve Rucker recovering on the four-yard line. Fullback Joe Hutchins then smashed in from the four tying the score at 6-6. Mel Jensen came in to kick the extra point but it was blocked by a host of Maquoketa players.

Maquoketa marched 89 yards for the winning touchdown in the final quarter. Big play in the drive was

McAreavy's pass to end Whitsell covering 33 yards. Dave Owen plunged from the one foot line with 2:38 left to put the Cardinals ahead to stay 12-6.

The Indians marched to the Card 28 in the final two minutes with Joe Benner hitting Hutchins with long pass gains. The Indians finally lost the ball on downs on the 37. The Indians' defense was led by Kurt Brandt making many fine tackles.

The Marion sophomores led by the running of Jim Simpson and Paul Nelson, routed the Maquoketa sophomores 28-0. The Indian defense was tough with Maquoketa never threatening to score against the little Indians.
